IMPORTANT CONTACTS

KEY DATES — SECOND HALF 2026

PRINT SETTINGS — STEP BY STEP

- 1 OPEN THE PDF FILE**
Open **desk-planner-2026.pdf** in Adobe Acrobat Reader, Preview (Mac), or your system's default PDF viewer. For best results, use Adobe Acrobat Reader (free download at adobe.com).
- 2 OPEN PRINT DIALOG**
Press **Ctrl+P** (Windows) or **Cmd+P** (Mac) to open the Print dialog.
- 3 SELECT YOUR PRINTER & PAPER**
Choose your printer. Set paper size to **A4**. Load your printer with A4 paper (210 × 297 mm).
- 4 SET SCALE TO 100% — NO SCALING**
In the print dialog, set **Page Scaling = None** or **Actual Size = 100%**. Do NOT select "Fit to Page" — this will shrink the content.
- 5 SET MARGINS TO NONE / ZERO**
Set margins to **None** or **0mm** on all sides. Enable **"Print Background Graphics"** or **"Print Background Colors"** if your viewer asks — this ensures the navy cover prints correctly.
- 6 SINGLE-SIDED OR DOUBLE-SIDED**
For a **bound desk planner**: Print single-sided, then arrange pages in order and bind on the left side.
For a **booklet**: Print double-sided (flip on long edge), fold in half and staple.

PRO TIPS FOR BEST RESULTS

- ★ Use **80–100 gsm paper** for everyday use; upgrade to **120 gsm** for a premium feel
- ★ The cover page uses a **dark navy background** — use a colour laser printer or high-quality inkjet for best results
- ★ For **grey-scale / black & white** printing, the weekly pages print cleanly in monochrome
- ★ Bind with a **spiral/comb binder** or place in an A4 ring binder for a professional desk planner feel
- ★ This PDF contains **54 pages** (cover + instructions + 27 weekly spreads × 2 pages each)
